STONEWAKE

Stonewake at a glance

What each part of the dashboard is and where to find it. Every part opens from the sidebar on the left, and your workspace shows the parts your team uses.

1 Deal Book

Live export finance, project finance and real estate deals, each with its sources. The team selector at the top of the sidebar switches whose book you see. The Following tab holds the deals, companies, people and topics you follow.

Sidebar, Deal Book

2 Network and Institutions

Look up a company to see its owners, officers, register data, sanctions and risk status, each linked to its source. Institutions lists the agencies, banks, multilaterals and exporters behind your deals.

Sidebar, Network for company lookup, Institutions for the registry

3 Screenings

Check an organization, a country or a person against official sanctions lists and adverse media. Every finding cites its source, and a person is never rated. Each screening downloads as a PDF report.

Sidebar, Screenings, then New screening

4 Portfolio

Your monitored exposures with status and score, status changes in the last 30 days, overdue reviews and sanctions name matches awaiting review.

Sidebar, Portfolio

5 Countries

Country risk for every market from Transparency International, the World Bank, the OECD, verified adverse news, the OFAC, EU and UN sanctions programs, the EU high risk list and the FATF lists. Open a country for its cited profile.

Sidebar, Countries

6 Tenders

Public tenders that fit your desk's sectors and regions, found every day, each with its notice. Add one to the Deal Book or dismiss it.

Sidebar, Tenders

7 Monitoring and alerts

Monitoring shows what is checked for the deals and names you follow and how often, and lets you pause, resume or change the frequency. New alerts arrive in the app under Your alerts.

Sidebar, Monitoring. Your alerts sits on the Portfolio page

8 Exports

Deals, companies, screenings and countries download as PDF reports, and deals and companies also as PowerPoint decks. Export on the Deal Book and Countries saves an Excel workbook.

The download buttons on each page

9 API and MCP

The API and the MCP server for AI assistants are documented at docs.stonewake.ai. Admins create API keys in Settings. Connected assistants lists every assistant allowed to read your workspace, always read only, and ends its access.

docs.stonewake.ai and Settings

10 Settings

Your workspace, team and role, alert mail and dashboard alerts, and Connected assistants. Admins also find Members, API keys, Single sign on, Sign in and directory, and the Audit log with a CSV download.

Click your workspace name at the bottom of the sidebar

Help. Ask in the competition WhatsApp group, open How it works at the bottom of the sidebar, or read docs.stonewake.ai.
